Designation: Stainless steel Series, bayonet ring, liquid fillable

Model: SS

Applications:

SS series pressure gauge is for industrial applications where the media or the environment contains chemically aggressive substances. The gauge is filled with liquid for dampen mechanical vibrations

Description:

Nominal size: (mm):

Ø(63, 100, 150)

Scale ranges: -1 to 1000bar

-1 to 1000bar Ø(63-100)

Accuracy class: 1.6 Ø(63)

1Ø(100-150)

Pressure connection:

1/4"Ø(63)

1/2" Ø(100, 150)

Wetted parts: Stainless Steel

Case material: Stainless Steel, bayonet ring

Window: Toughened glass

IP class: IP 65

Options/notes:

Lower and back entry

Welded case and connection
